Justin Miller, the Recycling Coordinator for the Cumberland

County Recycling and Waste Division,

was our speaker at the second meeting in February. He showed us an interesting video about collecting trash and recyclables. He mentioned that the job is a dangerous one in the streets where impatient drivers are a problem.

Back in January, Andrea Crouse, Director of Parks and Recreation for Carlisle

spoke to the club. The Parks and Recreation Department of the Borough of Carlisle works to provide open spaces

and movement-based activities for members of the Carlisle community. Parks and Rec created and maintains a bike trail system which provides community members with a safe place to exercise.

There are 18 parks in Carlisle maintained by the Parks and Rec department which provide open spaces for the community to spend time outside. The department will work with neighborhood association on supplemental maintenance projects. Park revitalization projects generate community investment in these open spaces and facilitates community building.

The Parks and Recreation Department also provides a host of educational programs which enhance community knowledge of and appreciation for green spaces. The

department produces a brochure three times a year to disseminate program information to the community. The programs are focused on active programs and healthy family activities.

The Molly Pitcher Award Dinner was a success with over 250 attendees to honor Rick Rovegno.

President Bob Taylor presents the engraved silver pitcher to Rick.

If you weren't there you missed some great music before and during the event.

Below is the link to the Sentinel article with all the details of the evening:
