Exchangite of the Year Rob Frey

Immediate Past President John Murray presented the Exchangite of the Year award to Rob Frey at the first meeting in September. The Board of Directors decision to choose Rob as the Exchangite of the Year was applauded by the other members of the club. Rob's membership was sponsored by his father and longtime member Bob Frey in 2014. Rob's dedicated support of the club's fundraisers put him in the forefront for this award.

Our speaker at the first meeting in September was **Mary Beth Brath, Program Coordinator** from the **Downtown Carlisle Association (DCA)**. A few of the programs that the DCA puts on annually are: **First Fridays, Corvette Parade and Harvest of the Arts**. Still coming up in 2017 are the November 25 **Small Business Saturday** and on December 1-2 **Santa Comes to Town and Parade**.

The mission of the organization is to market the assets of Carlisle, thus improving the quality of life, and increasing downtown business, tourism and economic development opportunities while coinciding with the Borough of Carlisle Comprehensive Plan. DCA is funded by grants, donations and sponsorships.

The DCA is a Nationally Accredited Main Street Program that follows the National Historic Trust's four-point approach for organizational

management including Design, Organization, Business Development and Promotion.

Mark Your calendar for two popular events in early 2018: February 9 – 10 **Ice Art Fest** and March 11 for **Taste of Carlisle**.

New Member takes the Pledge

At the second meeting in September, **Lynda Cook** became our new member! She lives right here in Cumberland Crossings community. Lynda has retired from a career in education. She lives next door to Tom and Betty Bowes who sponsored her.

Our second new member will be **Susan Murray**. She will be inducted at the October 10 meeting.

The speaker for the second meeting in September was **Justin Smith** from the **Cumberland County Geographic Information Systems (GIS)** office. The GIS office maintains and provides spatial data to government agencies, provides maps to agencies as requested, maintains the Master Street Address Guide, along with associated 9-1-1 data, and provides internet mapping applications to the public.
